## ACOUSTIC

## Acoustic Signals Electronic Sounders > AE40M Series

### Product overview

The AE40M Series is an 8-tone electronic sounder available in 10-30v Dc and 230v Ac versions. This product is ideal for fire alarm and industrial applications.

The Dc version is available in both deep base or shallow base, with deep base offering side entry and increased IP protection. The Ac version is deep base as standard.

### Features

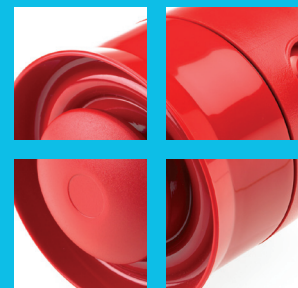

- Low current consumption
- 8 selectable tones
- M20 conduit knockout (deep base only)
- IP54 shallow base
- IP65 deep base

### Material

ABS Plastic

| Code No:     | Voltage:      | Frequency:  | Current: |
|--------------|---------------|-------------|----------|
| AE40M-24R-SB | 10-30v Dc --- | 800-2580 Hz | 32 mA •  |
| AE40M-24R •  | 10-30v Dc --- | 800-2580 Hz | 32 mA •  |
| AE40M-230R • | 230v Ac ~     | 800-2580 Hz | 50 mA    |

- Current at 24v Dc ---
- Increased Weatherproof to IP65
